

The René Moawad Foundation is a non-profit, non-political, non-sectarian, tax-exempt organization promoting sustainable human development in Lebanon. It was established in the U.S. in 1993, with headquarters in Washington DC, to advance the mission and goals of its counterpart in Lebanon, namely the improvement of the quality of life of the Lebanese individual. This is achieved through the Foundation's many projects on the ground in the fields of agricultural and social development, education and health care. Its ultimate objective is to contribute to building a responsible civil society that will strengthen national unity and promote democratic values and social justice.

The proceeds of this year's gala are dedicated to **RMF's Educational Projects** providing the youth in Lebanon with the opportunity for a better educational environment leading to a brighter and more dignified future.
